

SPECIAL ISSUE ON COMPLEX ANALYSIS: THEORY AND APPLICATIONS
DEDICATED TO PROFESSOR HARI M. SRIVASTAVA
ON THE OCCASION OF HIS 70th BIRTHDAY

Letter from Professor Hari M. Srivastava

Hari M. Srivastava

It gives me great pleasure to convey this message along with my greetings and best wishes to all of the participants in this Special Dedication Volume of the European Journal of Pure and Applied Mathematics (EJPAM), who have offered their worthy research contributions to this Volume. I am happy and honoured by the gesture shown by the editors of EJPAM (especially by its Editor-in-Chief, Prof. Dr. Eyup Cetin) in dedicating this special volume to my 70th birthday. The hard work and whole-hearted efforts by the editor, Prof. Dr. Alan Huckleberry, toward the success of this special volume are also worthy of admiration and appreciation. I am sure that Professor Huckleberry has had to go through a rather difficult task in selecting only a limited number of papers out of the many good submissions that were offered for this special volume.

Finally, on behalf of the editors of EJPAM and on my own personal behalf, I welcome you all to this Special Dedication Volume of EJPAM and I wish each one of you a remarkably successful and fulfilling professional career.

Hari M. Srivastava
